

"Keltruck offer a controlled, safe and environmentally friendly means of disposing of your Scania end of life or accident damaged vehicles"

RECYCLING WITH KELTRUCK

How do you dispose of your Scania end of life vehicles?
Are your vehicles dismantled in a controlled environment?
Are you really sure?

The European End of Life Vehicle directive now applies to commercial vehicles. As an Environment Agency Authorised Treatment Facility for ELVs, Keltruck offers safe and environmentally friendly means of disposing of your Scania end of life or accident damaged vehicles.

- Quality parts
- Reduced running costs
- Extends the life of your Scania
- Keep your Scania a Scania
- Maintain the quality
- Peace of mind

THE LEADER IN RECYCLED PARTS

Keltruck is the UK market leader in the supply of quality used and reconditioned Scania cabs, parts and assemblies. Our stock holding is the most comprehensive in Europe and covers all Scania parts; from a door handle to a complete engine, from a replacement panel to a complete cab – ready to 'drop on'. We also cater for Scania bus and coach operators.

We supply only quality Scania 3, 4 and P, R and T series parts through our Recycling Department. These are stored in a heated, central warehouse and can be provided 'as seen' or fully reconditioned and guaranteed – the choice is yours. The benefits of using recycled parts lie in cost-effective repairs with savings of up to 70%.

A WORLDWIDE SERVICE

Recycled parts, assemblies and even complete second hand vehicles can be prepared to meet your import requirements and regulations.
