

## VEHICLE SAFETY SOLUTIONS

# COMPLIANCE KITS

Scania now offer a supply and fit service on a full range of kits to meet the requirements of CLOCS and the FORS Bronze, Silver and Gold standards.

Our camera kits minimise blind spots and provide a view around the vehicle – helping slow speed manoeuvring in enclosed spaces.

The kits also feature both visual and audible alarms which effectively alert vulnerable road users to the vehicles movements, helping to reduce the risk of collision on urban roads.

Camera systems can also help to reduce fuel and load theft and fraudulent insurance claims – and can assist in collision investigations.

### IMPROVING SAFETY

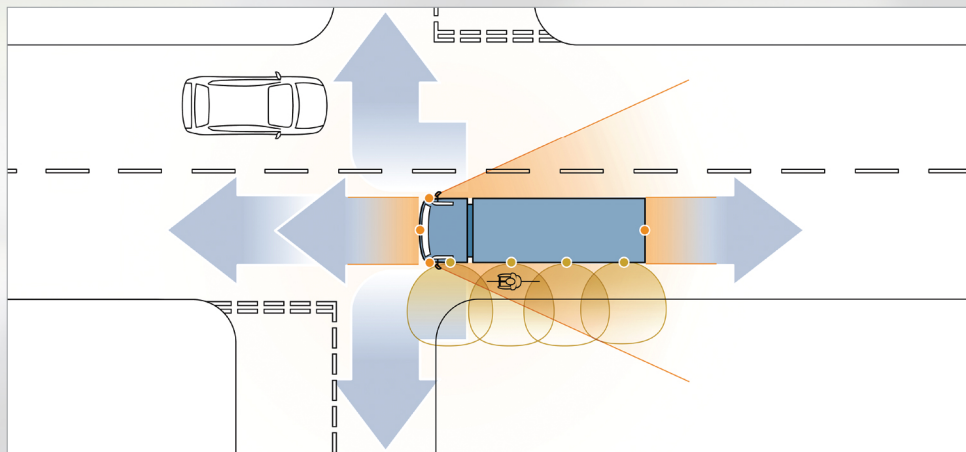

- Build on your health and safety culture by fitting camera systems and compliance kits.
- Meet CLOCS and FORS Gold, Silver or Bronze standards and give your company the best chance to win more business.
- Fitted across all Keltruck locations.

# A SAFER VIEW

Our range of products will help to meet your safety and compliance needs.

**WE NOW OFFER COMPLIANT 360° CAMERA KITS IN BOTH RECORDABLE AND NON-RECORDABLE VERSIONS.**

Our camera kits minimise blind spots and provide a 360° view around the vehicle – helping slow speed manoeuvring in enclosed spaces.

The kits also feature both visual and audible alarms which effectively alert vulnerable road users to the vehicles movements, helping to reduce the risk of collision on urban roads.

Camera systems can also help to reduce fuel and load theft and fraudulent insurance claims – and can assist in collision investigations.
